

## **Ph.D. positions at Tel Aviv University**

**Yair Shokef's group** at Tel Aviv University is hiring Ph.D. students for multiple research projects in mechanical metamaterials and active matter. Candidates should be highly motivated, with experience and interest in theoretical or computational research, and should hold an M.Sc. degree or equivalent in physics, engineering, or applied math. The fully-funded 4-year Ph.D. program at Tel Aviv University focuses mainly on research, with a small number of advanced courses that are given in English. Ph.D. studies are conditional on acceptance to the university, and can begin any time during the year.

**Please send personal statement of interest, CV, transcripts of grades, and names of at least two academic references to [shokef@tau.ac.il](mailto:shokef@tau.ac.il). Applications will be considered until the position is filled.**
